

Oil And Gas Health Safety and Environmental Qualification

Course Outline

Course Name

Oil And Gas Health Safety and Environmental Qualification (BOHSEC)

Who Is This Course For?

This course is designed for three distinct target audiences:

Local Namibian Participants:

- Entry-level and mid-career oil & gas workers (Roughnecks, Roustabouts, Drillers, Safety Officers, Medics, Mechanics, Crane Operators)
- Graduates seeking to enter Namibia's growing offshore energy sector
- Government officials and regulators in the Mines & Energy sector

International & Overseas Investors/Partners:

- Multinational oil & gas companies evaluating Namibian workforce readiness
- International HSE trainers and curriculum developers
- Offshore operators and drilling contractors tendering in Namibia

Industry & Corporate Clients:

- NAMCOR, NamPower, petroleum contractors
- HSE managers and safety consultants
- Training institutions seeking accreditation alignment

Why This Course?

Namibia's offshore oil & gas sector is one of Africa's fastest-growing frontiers. With major discoveries off the Orange Basin and increasing international investment, the demand for **qualified, certified, and workplace-ready local talent** has never been higher.

This programme bridges the gap between international HSE standards and Namibia's unique regulatory, cultural, and operational environment — making it the **only course of its kind** tailored specifically for both local workforce development and international investor confidence.

What Learners Will Be Able to Do After This Course

By the end of the 2-week programme, participants will be able to:

- Apply Namibian and international HSE legislation in real workplace scenarios
- Conduct risk assessments and job safety analyses
- Respond effectively to emergencies, incidents, and offshore scenarios
- Operate safely at heights, in confined spaces, and with hazardous materials
- Understand the roles and certification requirements for 18+ key industry positions
- Navigate the local content landscape and work within Namibia's regulatory framework
- Progress toward globally recognised certifications (BOSIET, HUET, IADC, OPITO, First Aid, Firefighting)

Delivery Options

- **In-person** at Nirvana Academy facilities (Windhoek + coastal/offshore-proximate venues)
- **Corporate on-site** delivery for oil & gas companies and contractors
