The Fire Fighter 2 course is the next progression up from the level 1 fire fighter course and is a career course intended for any person wishing to continue a career as a professional fire fighter. Our programme includes the Hazmat Operational course as part of the package.

The Fire Fighter 2 & Hazmat Operations Course is provided by Nirvana Business Solutions at their Training Academy located in Brakpan. All enquiries are handled by our Head office.

The Hazmat Operational course is available separately on special request.

This multimedia training programme includes:

-  Detailed subject notes and illustrations
-  Progress quizzes keep learning on track
-  An overhead slide presentation providing supplementary information
-  Videos illustrate best practices, case studies and operational examples
